

DIRECTIONS VIA NI APPROACH

The NI high-way, one of two major approaches , finally takes you along the edge of Cape Town City, with the harbour to your right hand side.

The NI ends at the first traffic light or robot (crossing Coen Steydler and Waterfront entrance) with the Cape Town International Convention Centre on the immediate left and the Cullinan Hotel on the left opposite corner (your landmarks). Keep **travelling straight across the intersection, following the M62 CABLE WAY & CAMPS BAY** signage from here onwards, which will take you along Buitengracht Road, which later becomes Kloof Nek Road. You will be travelling towards the highest cross-over point between Table Mountain (on the left) and Lions Head Mountain (on the right).

When you get to the cross-over point, with the intersection for Cable Way (left) and Lions Head (right), **proceed to travel straight ahead and start descending down CAMPS BAY DRIVE** on the Atlantic Seaboard side.

Start counting the roads on the left. (1st – Prima; 2nd – Ravensteyn; 3rd – Fiskaal ; 4th - Rontree). **Turn left into RONTREE AVENUE** (SHELL Filling Station on the corner is your landmark). This road will start winding up the mountain. (Do not take a little off-shoot on right called Rontree Lane). Just follow the road as it makes two long U-bends. **The road becomes OUDEKRAAL, then HOOPOE, then at the top you will Y-junction with THERESA AVENUE** (large white house in front of you as landmark).

Turn RIGHT into THERESA AVE and look for no. 77 on the left. Parking options: We have parking available on our parking deck or in the street. The choice is yours. Should you be a competent driver, you are welcome to park on the parking deck. The driveway is a little steep, so **switch off your airconditioner**, use **first gear** and take a **running start** from the opposite side of the road. The driveway takes a little curve to the left, then right and another sharp one to the right, just in front of the garages. Park at the top in front of the main entrance on our parking deck area. Parking is marked by down-lighters on the wall.

This is the part where you get out of your car and take it all in – the view is absolutely fantastic from here and will make the drive worth your while. You will not be disappointed!

Please travel safely. We look forward to meeting you.
